## SECTION I: PARTICIPANT INFORMATION

Participant Name: \_\_\_\_

Date of Birth (DOB):

Parent/Guardian Name:

# SECTION II: SPECIAL FORMULA/NUTRITIONALS AND SUPPLEMENTAL FOODS

Part A and B: Must be completed by a health care provider.

Part C: The health care provider can check the box below, indicating the WIC Nutritionist can determine appropriate issuance, prescribed amount, and length of time needed for WIC foods based on the patient's qualifying condition(s).

Part A) Qualifying Medical Condition         □ Premature ≤ 37 weeks gestation (P070.3)         □ Failure to thrive (R62.51)         □ Extremely low birth weight newborn (P07.00)         □ Severe food allergy (specify):         □         □ Metabolic disorder/Inborn errors of metabolism         (specify)         □ Malabsorption syndromes/GI disorders (specify):	Non-specific symptoms such as milk/formula intolerance, fussiness, colic, spitting up, gas, constipation or picky eating are <b>not</b> considered acceptable medical diagnoses/conditions for special formula and will not be approved. WIC <b>cannot</b> provide special formula to enhance nutrient intake or manage body weight without an underlying medical condition.	
	<ul> <li>Other medical condition that impairs nutrition status (specify):</li> </ul>	
Part B) Special Formula		

Formula requested:				Powdered	Concentrate RTF
Prescribed ounces/day:	OR	Max allowed	Duration:  □ 3 months	🗆 6 months	🗆 Until 12 months old

## Part C) Supplemental Foods

- □ I authorize the WIC Nutritionist to determine appropriate issuance of supplemental foods.
- □ I **DO NOT** authorize the WIC Nutritionist to determine appropriate issuance of foods. Select all that apply:

#### Infants 6-12 months
